CASE DETAILS

Case Reference: 01GD1160226

Community Request ID: 01/GD/11602/26

Defendant: Derrick Lynch, also known as John Canoe

For absolute clarity, at approximately **21:06 on 14 September 2026**, I submitted **ONE DOCUMENT ONLY** through the newly provided Metropolitan Police/Axon portal:

**MASTER RESUBMISSION NOTICE AND FORMAL REQUEST FOR WRITTEN
RESPONSE.pdf**

No supporting documents were included in that submission. The attached formal communication records this expressly.

The portal subsequently confirmed:

“Thank you — Your files have been submitted.”

However, the confirmation available to me did not identify the particular filename or provide a document-level receipt identifying precisely what had been received. When I subsequently returned to the portal to submit the supporting documents, it displayed:

“We are no longer accepting submissions for this portal.”

The remaining supporting documents have therefore **not yet been submitted through the newly provided portal.**

I respectfully request, as a matter of priority:

1. written confirmation that **MASTER RESUBMISSION NOTICE AND FORMAL REQUEST FOR WRITTEN RESPONSE.pdf** was received and associated with **Case Reference 01GD1160226**;
2. clarification of what **“Link is valid for 30 days”** means operationally;
3. confirmation whether an Axon link ordinarily ceases accepting submissions after the first successful submission;
4. a new submission link or alternative facility for the outstanding documents;
5. an auditable mechanism identifying the **individual filenames actually received**;
6. details of any applicable file-number, file-size or file-format restrictions; and
7. preservation of any available system/audit records capable of identifying the document submitted on 14 September 2026.

For completeness, the relevant documentary and screenshot evidence has been **incorporated directly into the attached document at pages 15–16**, so that the substantive communication and the evidence upon which it relies form a single record.

For the avoidance of doubt, **I make no accusations, no allegations, no assumptions and no assertions.** I have reached **no adverse conclusions** concerning the Metropolitan Police Service, Axon, the evidence-submission portal, its reliability, security, safety, professionalism, trustworthiness, efficiency, accuracy, technical operation, or the reason why the portal ceased accepting submissions.

My concern is specifically **evidential and procedural**. I seek an auditable record establishing exactly which particular documents have been received, so that neither I, the Police, the CPS nor the Court subsequently has to rely upon assumption or inference.

I am copying this communication to the **Crown Prosecution Service and Wood Green Crown Court for procedural transparency and record purposes.** I am not

asking either recipient to make assumptions about what the Police received or to determine any technical issue concerning the portal.

Please acknowledge receipt of this email and the attached document **in writing**.

Yours faithfully,

Derrick Lynch
